PROFESSIONAL SUMMARY

Aspiring Full Stack Developer with strong foundational knowledge in Java, HTML, CSS, JavaScript, SQL, Node.js, Express.js, MongoDB, and responsive web development. Passionate about building scalable web applications and solving coding problems using Object-Oriented Programming and Data Structures concepts. Experienced in developing academic full stack projects with CRUD operations, database integration, and REST API basics. Seeking an opportunity to contribute and grow as a Full Stack Developer Intern.

TECHNICAL SKILLS

- Programming Languages: Java, SQL
- Frontend: HTML5, CSS3, Responsive Web Design
- Backend: Node.js
- Database: MySQL, MongoDB
- Core Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA)
- Tools & Platforms: GitHub, VS Code
- Soft Skills: Problem Solving, Communication, Teamwork, Quick Learning

PROJECTS

Online Bookstore Web Application

- Developed a responsive full stack web application using HTML, CSS, Node.js, and MongoDB.
- Implemented CRUD operations for managing book details and user interactions.
- Integrated frontend and backend functionalities for seamless data flow.
- Improved understanding of REST API concepts and database management.

Student Management System

- Created a Java-based application for managing student records efficiently.
- Implemented add, update, delete, and search functionalities using JDBC and MySQL.
- Applied Object-Oriented Programming concepts for modular code structure.
- Enhanced skills in Java programming and database connectivity.

Code Visualization Platform (In Progress)

- Developing a web-based platform to help beginners understand code execution visually.
- Planning to use HTML, CSS, JavaScript, Node.js, and API integration.
- Focused on improving coding education through interactive visualization.

CODING PROFILES

- Practicing Data Structures and Algorithms using Java.
- Learning problem-solving through LeetCode and HackerRank.
- Active GitHub profile with academic and personal projects.
